What is HPAT – Ireland?

1.1 The Health Professions Admission Test- Ireland (HPAT – Ireland)

The Health Professions Admission Test – Ireland (HPAT – Ireland) is a 2½ hour multiple-choice test developed and used specifically to assist with the selection of students into medicine degree programs at undergraduate level.

HPAT – Ireland is divided into 3 sections and is designed to assess logical reasoning and problem solving skills as well as non-verbal reasoning and the ability to understand the thoughts, behaviour and/or intentions of people. The test has a strong focus on general skills and personal abilities that have been identified as important for a competent health professional. HPAT – Ireland is designed to complement academic achievement; it does not test academic knowledge and it does not require special understanding of any academic discipline.

1.2 Who should sit HPAT – Ireland?

HPAT – Ireland is available to any candidate who is applying to study a course for which HPAT – Ireland is a prerequisite, and who is capable of meeting the academic entry requirements set by the universities.

Applicants must either be in their final year of school or have completed their Leaving Certificate prior to 2012. Please note that international / non-EU students may be exempt from taking HPAT – Ireland. For further details contact the universities to which you intend to apply or refer to their websites.

1.3 Participating universities

You will need an HPAT – Ireland score for applications to an undergraduate medical program at the following institutions:

National University of Ireland, Galway

Royal College of Surgeons in Ireland

University College Cork

University College Dublin

Trinity College Dublin

For information about specific courses and admission requirements, please refer to the relevant university websites. Links are provided on the HPAT – Ireland website at www.hpat-ireland.acer.edu.au.

If you intend to apply to The University of Ulster, you should sit HPAT – Ulster. For more information please visit the HPAT – Ulster website at www.hpat-ulster.acer.edu.au

1.4 Structure and Content

The HPAT – Ireland test is a 2½ hour paper-based test consisting of three sections. Each Section is separately timed and there are no rest breaks between Sections. The questions are in multiple choice format with 4 or 5 response alternatives from which you are asked to choose the most appropriate. Each question has only one correct response. Questions in Sections 1 and 2 are in written form (though some Section 1 questions may present information in visual or tabular format). Section 3 questions are based entirely on visual material.

	Number of questions	Time in minutes
Section 1	44	65
Section 2	36	45
Section 3	30	40

Section 1: Logical Reasoning and Problem Solving

Materials in this Section are drawn from a wide variety of general sources and are based on a brief text and/or piece of information presented graphically. Questions assess your ability to comprehend, draw logical conclusions, reach solutions by identifying relevant facts, evaluate information, pinpoint additional or missing information, and generate and test plausible hypotheses.

Section 2: Interpersonal Understanding

Section 2 assesses the ability to understand and think about people. Questions are based on a scenario, dialogue or other text representing specific interpersonal situations. Most passages will have several questions. The questions assess your ability to identify, understand, and, where necessary, infer the thoughts, feelings, behaviour and/or intentions of the people represented in the situations.

Section 3: Non-Verbal Reasoning

Questions in this Section may be of several kinds. All are based on patterns or sequences of shapes and are

What is HPAT – Ireland?

designed to assess your ability to reason in the abstract and solve problems in nonverbal contexts.

1.5 Equity and Fairness

HPAT – Ireland is developed to rigorous professional and technical standards. Test questions are designed and developed by a team of ACER writers, expert in their subject areas, in close consultation with university faculty specialists. All test questions must pass detailed panelling, trial testing, analysis and final review. The content, style, duration and sequencing of the tests are determined to ensure that the testing program is relevant, fair, valid and reliable.

HPAT – Ireland test data are subjected to statistical analysis to check that each question has performed as required. Test questions in development are carefully scrutinised in an ongoing attempt to minimise gender, ethnic or religious bias, and to ensure that the test is culturally fair. The test may contain a small number of trial questions which will not be scored.

1.6 Use of Personal Information

Test results may be used by relevant authorities through ACER for purposes of research into the HPAT – Ireland programme. Candidates are assured that any use of registration and test records will be treated with the utmost confidentiality. Candidate names will be separated from data in all cases.

By completing the HPAT – Ireland registration form you are indicating your acceptance of the processing of your personal and sensitive data for purposes connected to your HPAT – Ireland registration amongst other things. Please see the Legal Notice at the end of this booklet.

ACER's policy on the collection, access to, and use of personal information can be found at www.acer.edu.au/about/assessment-services-privacy-policy.

The letter must be on official letterhead and must contain your name; date of birth; a passport photo glued to the letter with institution stamp overlapping; signature and title of the official verifying the identification; and your signature. A sample letter of identification is provided on the HPAT – Ireland website and you are strongly recommended to use this template to avoid any problems on the day.

IMPORTANT: The identity document you present MUST bear an easily recognisable photograph of you as you look on the test day. If you do not present your Admission Ticket AND appropriate identification you will not be allowed to sit HPAT – Ireland and will be turned away from the test centre.

4

Preparing for HPAT – Ireland

4.1 HPAT – Ireland Practice Materials

The purpose of HPAT – Ireland is to assess your abilities in a range of general skills. HPAT – Ireland measures skills acquired over a period of time, including the ability to reason, make logical deductions and form judgments. The test does not draw on any particular body of knowledge or curriculum. Wide and critical reading may provide helpful preparation for Sections 1 and 2. Some familiarity with the question types typically presented in HPAT – Ireland is beneficial.

The only official HPAT – Ireland Practice Materials are available from the HPAT – Ireland website or with your registration. There are currently two publications available for purchase at a cost of € 22 each plus € 5.50 for postage and handling.

ACER does not conduct HPAT – Ireland preparation courses, nor do the Universities requiring HPAT – Ireland as a prerequisite. ACER and the Universities do not recommend or endorse any commercially available courses offering HPAT – Ireland preparation. Nor does ACER or the Universities have knowledge of the content of such courses, or any involvement in their development, or any commercial interest in the programs. Thus the HPAT – Ireland Office is unable to comment on these courses.

4.2 Test-taking Strategy

Work steadily through the test. It is not advisable to spend too much time on any one question. If you think you know the answer to a question, mark it, even if you are not certain. Go on to the next question and come back later if you have time. No credit is given if more than one answer is marked. No marks are deducted for a wrong answer. All questions have the same value; therefore by attempting as many questions as possible you stand the best chance of maximising your score. Questions are in multiple choice format. It will be advantageous for you to develop your own strategies for answering this type of question.

Mark your answers directly onto the HPAT – Ireland answer sheet and not in the test book. Any rough work may be done in the margins of your test book. Scrap paper is not allowed.

5

HPAT – Ireland Results

5.1 The HPAT – Ireland Scores

An online HPAT – Ireland Statement of Results will be issued to every candidate in late April. You will receive a score for each of the three Sections, together with an Overall HPAT – Ireland Score and an overall percentile rank to give you an indication of how well you performed against other HPAT – Ireland candidates.

Your results will also be provided to the Universities and the CAO for the purpose of selecting applicants for interview. Results for mature applicants will be sent to the universities for short-listing purposes prior to the official release in late June.

Under no circumstances will results be released over the telephone, by fax or by email. This is to protect candidate confidentiality.

Candidates will not be provided with any additional information on scores or the scoring process. All information remains the property of HPAT – Ireland and no right of inspection will be deemed to be vested in a candidate.

5.2 Validity of Results

The HPAT – Ireland score is valid for two years. Scores are scaled by ACER to make them directly comparable from year to year. If you have more than one valid score (i.e. you take HPAT – Ireland two years in a row) you may use whichever score you prefer.

5.3 Appeals and Re-checks

The HPAT – Ireland Office will not enter into appeals against HPAT – Ireland results or any penalties applied for misconduct under this agreement.

Please note that results are released after careful calculation and extensive checking, and errors in scoring are highly unlikely. However requests for re-checks can be submitted online by midnight Thursday 10 May 2012. A fee of €80 is payable for this service.

It is not possible to give special consideration for impaired performance on the day of the test caused by illness or unexpected personal situations.
